

QUESTIONS AND CONCLUSIONS

CONCLUSIONS 3-4

Read the statements and choose the best options. (1-3)

Q1:

“Playing outside helps children stay active and healthy.” (1 point)

- A) Children should never play outside.
- B) Playing outside is only fun but not helpful.
- C) Playing outside is good for health and activity.
- D) Children should only play video games.

CONCLUSIONS

Q2: Playing outside is good for health and activity.
The statement says playing outside helps children stay active and healthy. The other choices add false information or change the meaning.

SOLUTION IS C

Q2:

“When people work together, they can solve problems more easily.”

What can we understand from this statement?
(2 point)

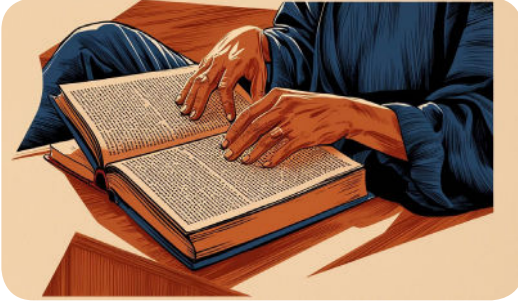

- A) Teamwork makes solving problems easier.
- B) People should always work alone.
- C) Problems can never be solved.
- D) Working together is always difficult

CONCLUSIONS

Q4: Teamwork makes solving problems easier.
The statement explains that teamwork helps solve problems. The wrong choices suggest the opposite or give unrelated ideas.

SOLUTION IS A

Q3:

“Reading books helps people learn new things and use their imagination.”

What can we understand from this statement?
(3 point)

- A) Reading is not important for learning.
- B) Reading books helps people gain knowledge and be creative.
- C) Imagination is not needed while reading.
- D) Only school books are useful for learning.

CONCLUSIONS

Q3: Reading books helps people gain knowledge and be creative.

The statement says reading helps with learning and imagination. The wrong choices change or limit the meaning of the sentence.

SOLUTION IS B

Read the text and answer the questions.
(4-6)

Q4:

The Arctic fox lives in very cold places. Its fur is white in winter, helping it blend with the snow. In the summer, its fur turns brown, making it harder to see on the ground. This color change helps the Arctic fox stay safe from predators.

Why does the Arctic fox's fur change color?
(4 point)

- A) Because it likes to wear different colors.
- B) To help it stay warm.
- C) To hide from predators.
- D) So other animals know where it is.

CONCLUSIONS

Q4: To hide from predators.

The text explains that color change helps the fox stay safe by blending into its surroundings.

SOLUTION IS C

Q5: Which of the following is true about the Arctic fox? (5 point)

- A) It stays the same color all year.
- B) It lives in the desert.
- C) It changes color to hide in different seasons.
- D) It does not need to hide from predators

CONCLUSIONS

Q4: It changes color to hide in different seasons.

The text states that the Arctic fox's fur changes color depending on the season. The other answers contradict the text.

SOLUTION IS C

Q6: What is the main idea of the text? (6 point)

- A) The Arctic fox eats a lot of food.
- B) The Arctic fox changes color to survive in its environment.
- C) The Arctic fox is the biggest animal in the Arctic.
- D) The Arctic fox does not like snow.

CONCLUSIONS

Q6: The Arctic fox changes color to survive in its environment.

The whole text focuses on how the Arctic fox changes color to stay safe. The other answers are not mentioned or are incorrect.

SOLUTION IS B

Read the text and choose the best title.
(7)

Q7:

Planets move around the sun in space. Some planets, like Earth, have air and water, which makes life possible. Other planets, like Mars, are rocky and dry. Scientists study these planets to learn more about space.

What is the best title for this text? (7 point)

- A) Life on the Moon
- B) Why Planets Are Square
- C) The Planets in Space
- D) How to Become a Scientist

CONCLUSIONS

Q6: The Planets in Space

The text talks about different planets and space, making this the best title. The other choices are unrelated or incorrect.

SOLUTION IS C
