CONCLUSIONS 7-8

CONCLUSIONS

Q1: C) Soccer

The bar chart shows that soccer has the highest number of students (40), making it the most popular sport.

SOLUTION IS C

CONCLUSIONS

Q2: B) 25%

According to the pie chart, students spend 6 hours at school, which is 25% of a 24-hour day.

SOLUTION IS B

CONCLUSIONS

Q3: C) Thursday

The highest temperature recorded is 25°C, which occurred on Thursday.

SOLUTION IS C

CONCLUSIONS

Q4: A) Fiction

Adding up all weeks:

Fiction: 30 + 25 + 40 + 35 = 130

Non-fiction: 20 + 15 + 22 + 18 = 75

Comics: 15 + 10 + 18 + 20 = 63

Magazines: 10 + 12 + 8 + 14 = 44

Fiction has the highest total.

SOLUTION IS A

CONCLUSIONS

Q5: C) 20

Adding students who scored in the 61 – 80 and 81– 100 ranges:

17 + 8 = 25 students scored above 60.

SOLUTION IS C

CONCLUSIONS

Q6: B) five minutes, so you need to run

The airline staff is emphasizing urgency, so the most logical choice is that boarding starts in five minutes.

SOLUTION IS B

CONCLUSIONS

Q7: A) whipped cream or cinnamon on top

The barista is likely asking about common coffee toppings, making option A the best fit.

SOLUTION IS A

CONCLUSIONS

Q8: A) the best camera, battery life, or price

The salesperson is helping Sontavius choose a phone, so they would ask about common features that influence a purchase.

SOLUTION IS A

CONCLUSIONS

Q9: A) hiding secret messages in his brushstrokes

This keeps the response engaging and relevant to art, making it the most fitting and unusual answer.

SOLUTION IS A

CONCLUSIONS

Q10: B) pulled toward the center and can never escape

This is the correct scientific explanation of what happens beyond the event horizon of a black hole.

SOLUTION IS B

CONCLUSIONS

Q11: B) The Moon landing happened in the late 1960s.

The year 1969 confirms that the landing happened in the late 1960s, making this statement correct. The other options are incorrect because Yuri Gagarin was the first person in space, Armstrong never walked on Mars, and Apollo 11 was in 1969, not the 1980s.

SOLUTION IS B

CONCLUSIONS

Q12: C) The temperature was lower than 15°C.

The passage clearly states that the temperature dropped to 10°C, so we can confidently say it was below 15°C. The other options are assumptions or not mentioned.

SOLUTION IS C

CONCLUSIONS

Q13: C) Water can never boil above 100°C under any circumstances.

While water usually boils at 100°C at sea level, under pressure (like in a pressure cooker), it can boil at higher temperatures. The other statements are correct.

SOLUTION IS C

CONCLUSIONS

Q14: A) Romeo and Juliet is a play written before the 17th century.

Since the play was written in the late 1500s, it is correct to say it was written before the 17th century. The other options are false because Shakespeare wrote many plays, Romeo and Juliet was performed in the 16th century, and the story is set in Verona, Italy, not modern London.

SOLUTION IS A

CONCLUSIONS

Q15: B) Everything posted on social media is always accurate.

Not everything on social media is reliable or true. The other statements are generally correct.

SOLUTION IS B

CONCLUSIONS

Q16: A) I'll have an onion burger and a lemonade, please.

Leanne is responding to a waiter's question about ordering food, so a food-related response makes sense.

SOLUTION IS A

CONCLUSIONS

Q17: A) Yes, turn left at the traffic light, and you'll see it on your right.

Since Elise is asking for directions, a response that gives directions is the correct choice.

SOLUTION IS A

CONCLUSIONS

Q18: A) I have a terrible backache.

Susanne is answering a doctor's question, so a response about health issues is appropriate.

SOLUTION IS A

CONCLUSIONS

Q19: A) I need one ticket to Chicago, please.

CJ is responding to a question about his destination, so he should say where he wants to go.

SOLUTION IS A

CONCLUSIONS

Q20: A) I forgot my notebook at home.

Leon is answering a question about his homework, so a response related to forgetting it is correct.

SOLUTION IS A

CONCLUSIONS

Q21: B) Ezra enjoys mysteries and adventure.

Ezra's excitement about the letter and suggestion to go indicate that he enjoys mystery and adventure. The other options are not directly stated or suggested in the paragraph.

SOLUTION IS B

CONCLUSIONS

Q22: B) Students should check their emails for further information.

The paragraph clearly states that students should check their emails for updates about rescheduled exams and assignments. The other options make assumptions not supported by the text.

SOLUTION IS B

CONCLUSIONS

Q23: B) Niam and his grandmother have a routine at the market.

The paragraph describes a repeated pattern of activities that Niam and his grandmother follow every time they visit the market, making this the best answer.

SOLUTION IS B

CONCLUSIONS

Q24: D) He forgot where he put the key but remembered later.

The paragraph describes how Mikhail forgot where his key was, searched for it, and then remembered it was in his jacket. The other options are either incorrect or not fully supported by the text.

SOLUTION IS D

CONCLUSIONS

Q25: A) Sienna knew about the party in advance.

The paragraph states that Sienna was surprised, so she did not know about the party beforehand. The other statements are correct.

SOLUTION IS A

CONCLUSIONS

Q26: A) II - I - III - IV

Leah encounters the storm first (II), then notices something unusual (I), realizes it's a kitten (III), and finally helps it (IV).

SOLUTION IS A

CONCLUSIONS

Q27: B) II - I - III - IV

Felix finds the letter first (II), then opens it (I), sees the mysterious message (III), and finally examines it closely (IV).

SOLUTION IS B

CONCLUSIONS

Q28: A) II - I - III - IV

David faces the tough decision first (II), struggles with it (I), gets reassurance from his parents (III), and finally decides (IV).

SOLUTION IS A

CONCLUSIONS

Q29: A) II - I - III - IV

Lucas hears the sound first (II), then investigates (I), notices something suspicious (III), and gathers his courage (IV).

SOLUTION IS B

CONCLUSIONS

Q30: A) II - IV - I - III

Amelia prepares her project first (II), adds the ingredients (IV), the volcano erupts unexpectedly (I), and she reacts humorously (III).

SOLUTION IS D

CONCLUSIONS

Q31: D) IV

The passage describes a countryside visit, but sentence IV about ancient civilizations is unrelated.

SOLUTION IS C

CONCLUSIONS

Q32: C) III

The passage is about Mia enjoying a cozy, rainy afternoon, but sentence III about groceries is unrelated.

SOLUTION IS C

CONCLUSIONS

Q33: C) Painting is the most popular hobby.

Painting has only 6 students, while Playing Sports (12) is the most popular.

SOLUTION IS C

CONCLUSIONS

Q34: B) Rome receives more rainfall than Munich.

Rome has 82 mm, which is more than Munich's 65 mm.

SOLUTION IS B

CONCLUSIONS

Q35: C) Canada spends the least on food.

Canada spends 25% on food, which is more than Brazil's 18% and South Korea's 12%.

SOLUTION IS C
